

Discover the best smart locking solutions for

Amusement venues.

- Increase your turnover and customer satisfaction
- Best user experience: scan QR, fill in e-mail and ready to lock
- Add direct or advance reservation & payment options

Lockers with excellent ROI for amusement venues.

A day of animal spotting, a trip to the playground, an exciting day with roller coasters and other thrilling rides or a refreshing visit to the splash park: visitors should feel welcome, save and relaxed. This includes making sure they can store their personal belongings safe and conveniently. For zoos, playgrounds, theme parks and water parks, the Keynius smart lockers are a great way to offer guests a super simple and highly secure storage solution, which they can easily book and pay for in advance or locally at the terminal with a debit card (with PIN code or NFC). But Keynius also opens up a world of inventive simplicity and smart, flexible options for locker administrators. And last but not least, the smart cloakroom lockers also save on personnel costs and pay for themselves even faster through (configurable) rental revenues.

Keynius smart locking control

Touch screen (Smarty)
QR/Barcode
Fingerprint
Pay
Key card (RFID/NFC)
App (Mobile/Tablet)
Online (Mobile/Tablet)

3 Developed as one system: Matching hard- and software.

- Ultra-flexible and expandable
- Unique lock that can serve as both push2open and pop2open
- Enhance locker cabinets with features such as USB-A & USB-C power connection, cabinet and/or door lights, RFID and more
- Cloud operated: safe, secure, automatically updated, no servers needed
- 3rd party software system integration (API)

USE CASE Toverland Sevenum (NL).

With 1,165,000 visitors, Toverland was one of the most popular theme parks in the Netherlands in 2023. Since a few years all those visitors can benefit from 99 smart (controlled) lockers for daily storage, provided by Keynius. At different locations visitors can easily pre-reserve or claim and pay locally for a locker and thanks to the web app control, leave the amusement venue without queuing. The popular theme park thus created a more efficient and

profitable cloakroom and visitors can enjoy an magical visit to Toverland.
